Our first Christmas

A/N I was challenged to write a story by hippogriff-tamer I would like to thank her for the challenge, and for being my beta I would also like to wish everybody happy
holidays

18-year-old Tracy Turnblad woke up more excited then usual on Christmas morning 2005. For one reason Christmas was by far her favorite holiday, another reason was because it was her first Christmas with her boyfriend of 7 months Link Larkin, and last because today was the day she was going to give Link the most precious gift a woman can give. She had been looking forward to it since the day she became his girlfriend, and after suffering through the humiliation of sitting on Santa's lap so that Link could get a picture she deserved it. She got out of bed, and headed down stairs for breakfast after that she did Christmas with her parents, and put on her Santa suite because she wanted to surprise Link. She then put all of her gifts to Link, and a plate of cookies that she had made the night before into a bag then drove the short distance to Link's house when she got there she rang the doorbell.

"Coming."

Link opens the door
>"Ho, ho, ho marry Christmas"<p>

"You two Santa"

Tracy kisses Link

"Santa you're an amazing kisses but I have a girlfriend, and I love her to death".
